Palatines .............................................................................................................. 292
Preface

The following list is a compilation of books available for researchers in the Kellenberger Room of the New Bern-Craven County Public Library. The list is arranged by subject categories developed by Linda Blake and Evelyn T. Stallings in their article, LRTS 41 (4): 335-336. Blake and Stallings reported that the Library of Congress Subject Headings (LCSH) are not very useful in helping genealogical researchers find materials that they need. To help alleviate this problem, they devised their own system of subject headings, modifying LCSH as needed.

The bibliography below includes only books located in the North Carolina Genealogy section (R NC 929s) of the Kellenberger Room. The list does not include North Carolina Histories (R NC 975.6) or the General Genealogy Collection (R GEN). There are also numerous microfilmed records that are included in Volume 2 of this listing. The library also has some materials on family histories in vertical files which are not included here. Please consult the vertical files listings for those records.

With the present volume, researchers will need to look for various spellings of surnames (i.e. Witherington, Withington, Wetherington, etc.).

The books included in this bibliography are those owned by the New Bern-Craven County Public Library on March 10, 2010. The bibliography was created using ProCite® 5.0 and MicroSoft Word®.
